

HCLE 2013 Report

Liza,

The following list is simply that, a list of the organizations, people, endeavors, topics, events, etc. that we've worked on in 2013. Consider the length of the list. Even just as a simple set of words, what we've done goes on for pages. If we were to write descriptions of every effort, we'd have a bookshelf of volumes. So, if you feel tired, don't be surprised. I actually recommend it as a reason to celebrate.
